

# EQUIPMENT LIST

One of the things that sets The Blueprint Studio apart from other training venues is our extensive range of up-to-date, modern canine training equipment. We have invested so you don't have to.

The Studio is covered in 20mm-thick, gym-quality, shock-absorbing rubber flooring – so, within reason, your dog can safely jump and run around.

## 01 SLAT MILLS

2 × Firepaw Phoenix Gen 10 Slatmills – the best spec, with plastic running belts and upgraded braking system and wheels. Both size Large, with incline ramps.

We have Firepaw and El Perro harnesses in a variety of sizes for use on the slatmill.
